The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Canfield in view of Williams and Chauhan et al. Canfield shows all the structures of the device as recited by the claims except the suction cups and the sidewall rib. It would have been obvious to provide the bottom portion of Canfield with suction cups of Williams and reinforcing ribs of Chauhan et al in order to enhance handling process of placing the holder in a secure manner.

Any inquiry concerning this office action will be directed to Examiner Joseph Moy, (703) 308-1145.
